

WISSAL SOLTANI

Data Analyst & BI Developer

+216 54 416 157 | soltani.wissal100@gmail.com | Ben Arous, Tunisia

Data Analyst and Business Intelligence professional with hands-on experience in building automated ETL pipelines, developing interactive dashboards, and performing deep data analysis. Currently completing a Master's degree in Business Intelligence, leveraging a strong foundation in database management. Proven ability to translate complex datasets into actionable business insights using Power BI, SQL, and Python. Seeking remote Data Analyst opportunities to drive data-informed decision-making.

EDUCATION

Master's Degree in Business Intelligence (M2)

Higher Institute of Technological Studies of Rades | 2025 - 2027 (expected)

Bachelor's Degree in Information Systems Development (Graduated with Highest Honors)

Higher Institute of Technological Studies of Rades | 2022 - 2025

PROFESSIONAL EXPERIENCE

Data Analyst Intern | SimpliTraining | 2026

Engineered robust ETL pipelines to extract, clean, and transform complex administrative, financial, and operational datasets.

Developed and deployed interactive Power BI dashboards to monitor key business metrics, including revenue generation, operational costs, and training catalog efficiency.

Analyzed client feedback data and trainer performance metrics, delivering actionable insights that improved training program quality.

Graduation Project Intern | Safari Voyages | 2025

- Designed and developed a custom ERP system to support business operations
- Built data management modules to improve operational efficiency
- Analyzed business requirements and proposed digital solutions
- Worked with PostgreSQL, Prisma ORM and Next.js

Advanced Internship | TOPNET | 2024

- Developed a leave management application
- Participated in business process analysis and reporting
- Collaborated within an Agile development team

TECHNICAL SKILLS

Data Visualization & BI: Power BI, DAX, MDX, Streamlit, Advanced Excel, Interactive Dashboards

Data Engineering & ETL: SSIS, SSAS, OLAP Cubes, Data Cleaning, Data Warehousing, Apache Spark

Databases & Cloud: SQL, PostgreSQL, MySQL, Amazon Redshift, Microsoft Fabric, SAP HANA

Programming & ML: Python, R, Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Deep Learning, NLP, Statistics, A/B Testing, Feature Engineering

DevOps & Tools: Git, Docker, Google Analytics

ACADEMIC PROJECTS

MovieLens Analytics (SSIS / SSAS / Cube)

- Designed a star schema data warehouse model to analyze a dataset of over 100,000 movie ratings.
- Built custom ETL workflows to process raw data and developed OLAP cubes for multidimensional analysis.
- Designed interactive KPIs to evaluate user behavior trends and support recommendation system logic.

Predictive Modeling & Analytics (House Pricing & Weather)

- Executed end-to-end Machine Learning pipelines (ETL, Feature Engineering) processing over 70,000 combined records in Python and R.
- Implemented predictive forecasting models and deployed the analytical results into production via interactive Streamlit dashboards.

LANGUAGES

Arabic: Native | French: Fluent | English: Professional

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Teamwork | Time Management | Attention to Detail
